A large clock, which is on exhibition at this store, will be wound up—the face of this clock is covered—and it will be allowed to run down and stop.

With every \$1.00 cash purchase we will give a card—this card will be stamped with a special time of day. The card also states a certain time when you are to present it at this store. On the time specified all persons holding cards for this date will present their cards at the time indicated, the face of the clock will be then uncovered, and the person holding a card which time is nearest to that of the time when the clock stops, gets this beautiful present absolutely free.

Remember, you must be in the store when the clock is uncovered as the article will be given to the person present with the nearest time card.

We will give away a great many of these presents, so if your card does not win at the first uncovering of clock, do not throw it away; save it. You may win on it the next time or the 3rd, 4th, 5th, 6th or some future time. Save your cards.

Our prices will remain as heretofore, the lowest—our quality as always, will be the best.

Will you call at our store and see the presents and get further particulars?
